Pave Technologies Co., Inc.
Attn: Jack Holloway, Q.A. Manager
2751 Thunderhawk Court
Dayton, Ohio 45414

Dear Mr. Holloway:

Subject: Pave Technologies Listing on Los Alamos National Laboratory's (LANL) Institutional Evaluated Supplier List (IESL)

LANL's supplier evaluation program evaluates company's quality management program for placement on LANL's Institutional Evaluated Supplier List (IESL). The quality requirements for an evaluation are provided by the LANL customer needing products or services from a supplier. The LANL Quality Assurance-Independent Assessment (QA-IA) organization responsible for implementation of LANL's supplier evaluation program received a request to evaluate Pave Technologies using the quality assurance requirements defined in 10 CFR 830.120 and DOE Order 414.1C.

An administrative evaluation of Pave's quality management program was performed. Based on the evaluation, Pave Technologies has been approved for listing on LANL's IESL. The approval for listing was primarily based on the third-party on-site audit performed by Babcock & Wilcox. Pave's ISO 9001:2008 certification was also a consideration.

The product description on LANL's IESL will read as follows: *Designer and manufacturer of custom engineered hermetically sealed and explosion-proof electrical thru-bullhead cable assemblies and connectors for commercial, scientific and defense applications*; and valid until September 14, 2013.

This listing is contingent on your company continuing to meet the LANL Supplier Evaluation Program requirements. This is also contingent upon LANL's continued need for your product and is not a guarantee of any purchases or any specific level of business transaction.

If you have any questions or concerns, please contact me at any time.

Sincerely,

Rose Gallegos
